## Viewing the Embroidery i<sup>2</sup> Help

Embroidery i<sup>2</sup> for Adobe Illustrator Help is available on the Embroidery i<sup>2</sup> home page. The help contains detailed instructions for all tools and settings that are specific to the Embroidery i<sup>2</sup> plug-in, such as the Embroidery Path tools, the Properties Panel, and the various Editing tools.

Important: The Embroidery i<sup>2</sup> help is not intended to supplant the Adobe CS3 help; for regular tools, settings and functions of Adobe Illustrator, refer to the Adobe Illustrator help in Adobe Help Viewer.

There is an html version that will open in your browser and a pdf version that you can view or print. Just click the [Online Help](#) link for the html version and the [User's Guide](#) link for the pdf manual.

**Server Name:** When you sign on, you are able to choose from a list of Embroidery i<sup>2</sup> servers. To view the available servers, open the Embroidery i<sup>2</sup> Home page, and click on the View Available Servers link.

This will display the addresses of the servers, and you can copy and paste (or type) any one of them into the Server name field.

The screenshot shows the Embroidery i<sup>2</sup> software interface. At the top, there's a logo for "Embroidery i<sup>2</sup> for Adobe® Illustrator®". Below it, a navigation bar has "Home" and "Community" options. The main content area is titled "Available Servers" and contains a table with three rows:

server	address
Canada Server	canada.embroideryi2.com
French Server	france.embroideryi2.com
UK Server	uk.embroideryi2.com

**Server port:** Type '8888'.

**Username and Password:** Sign in with the same user name and password that you created when you registered. Click **OK**.

If you do not have an internet connection, you can still edit your Illustrator files off-line – you just will not be able to use any embroidery tools. To work off-line, just click Cancel instead of OK in the Communication Info dialog. Adobe Illustrator will open as usual, and you will be able to edit other (non-embroidery) path segments.

## Introduction:

Thank you for purchasing the Embroidery i<sup>2</sup> for Adobe® Illustrator® plug-in. In the sections that follow, you will learn all you need to know to get started doing creative embroidery work using Embroidery i<sup>2</sup>.

## System Requirements

**For PC:** Microsoft® Windows® XP with Service Pack 2 or Windows Vista™ Home Premium, Business, Ultimate, or Enterprise (certified for 32-bit editions).

**For Mac:** OS X v10.4.8–10.5 (Leopard), and a multi-core Intel® processor.

Important Note for Mac users: The Embroidery i<sup>2</sup> plug-in will not work with the Power PC chip, used in older Macs; and Intel-based computer is required to run the software.

 If you are unsure about which chip your computer uses, you can look it up by doing the following: click the Apple symbol on the menu bar, and select About this Mac from the list. The new window that opens gives the specifics on your chip, under the heading "Processor". If the processor has Intel in the name, it will work with Embroidery i<sup>2</sup>.

**Plus, for either system:** Adobe Illustrator CS3 or CS4 and a working internet connection.

## Registering with the Embroidery i<sup>2</sup> Community

All the installation, downloads, and support for Embroidery i<sup>2</sup> is internet-based. At time of purchase, your distributor will give your activation code, which allows you to activate your software on the site.

The first thing to do is to go to the Embroidery i<sup>2</sup> site at <http://www.embroideryi2.com>, and click the Registration button. You will be taken to a page that will look like this:

The screenshot shows the Embroidery i<sup>2</sup> registration page. It has two main sections: "I need to register" and "I am already registered". The "I am already registered" section contains fields for "User Name" and "Password", a "Remember me next time" checkbox, and a "Log In" button. Below these fields is a link "Forgot your password?".

Click on the Register Now link, and you will see another page with a field in which you can enter your activation code.

You will now be taken to the Registration page (your activation code is will be displayed in place of the string of x's in the illustration). In the fields on this page, create your own User Name and Password, and then confirm the Password.

You may need to restart your computer at this point for the plug-in to function properly.

## Starting Embroidery I<sup>2</sup> for Adobe Illustrator:

Once you have installed the Embroidery i<sup>2</sup> plug-in, it will be loaded into Adobe Illustrator each time you open it. Just launch Adobe Illustrator as usual, and sign in when you see the Communication Info dialog; this dialog launches automatically as Adobe Illustrator loads plug-ins at start-up.

This sign-on procedure takes place every time you start Adobe Illustrator with the Embroidery i<sup>2</sup> plug-in installed; however, the fields are set to remember your information. So, after you have input the required information once, you can just click OK every time you need to sign on to the server. The only time you would need to change one of these fields is if you change to a different server.

## The Communication Info dialog:

To use the embroidery path tools, you need to be signed on to the i2 server. When the plug-in loads, you will see a dialog like this:

If Adobe Illustrator is already open on your machine, you will need to close and restart it at this point for the plug-in to function properly.

### Mac OS Installation:

When you download the Mac version of the install, you will see that the installation package is contained in a zipped folder, I2EmbMacSetup.zip. Double-click on the zip file and unpack the files. After the files unpack, you will see the Installer Package icon:

Double -click the Installer Package icon, which will automatically start the installation.

Click continue, and then follow the step-by-step instructions; when you get to the end of the installation process (the message “the software was successfully installed” will be displayed) click close.  
For a more detailed view of the procedure, please look under “Installing the Software ” in the User’s Guide.

### Register Activation Code

XXXXXXXX-XXXX-XXXX-XXXX-XXXXXXXXXX

Enter connection details:

User Name:

Password:

Confirm Password:

E-mail:

Once you have created your User Name and Password and entered your E-mail, click the **Register** button. You will now be taken to the home page, which looks like this:

From this page, you have access to many resources: You can download the latest version of the Embroidery i<sup>2</sup> plug-in, view the online help, download a printable User's Guide, and view a list of available Embroidery i<sup>2</sup> servers.

Clicking on the [Community](#) link will give you access to all the features of the Embroidery i<sup>2</sup> Community. This is an online venue for sharing information, projects and ideas about design with Embroidery i<sup>2</sup> for Adobe Illustrator. There are blogs, forums, a project gallery, and much more.

### Downloading the Installer:

Once you have registered and signed on to the Embroidery i<sup>2</sup> home page, you can download the installation files at any time. From the Home page, navigate to the [Latest Update](#) page.

On this page, you will find separate links to the Mac OSX and Windows versions of the software. Double-click on the version that applies to you, select a

destination for saving the install, and the appropriate files will download.

### Installing the Plug-in:

#### Windows Installation:

When the download is complete, open the directory containing the install executable (Embl2WinSetup.exe), and double-click to launch it. You will then see an Installshield Wizard page, which will begin to extract the required files. After the Installshield finishes extracting the files (this may take a few minutes), this screen will appear:

Click next and follow the step-by-step instructions. When the Installshield Wizard is done installing the plug-in, click finish to close the Wizard.

For a more detailed view of the procedure, please look under "Installing the Software" in the User's Guide.
